www.talkpsoriasis.com

talkhealth runs a group of online community based information and support websites for patients and carers living with the day to day difficulties of eczema, acne, allergy and psoriasis.

Patients can browse the websites for information and the latest news about their condition and by becoming a member can access the following:

- patient forums
- NHS Choices Expert forums
- find a friend - where you can talk with others on a one to one
- e-newsletter - delivered to your inbox quarterly
- participation in surveys and research
- free samples and offers
